What do we call an animal that eats only plants?	What do tadpoles grow up to be?
Animals300	Animals400
What group of animals has feathers?	What do we call an animal with a backbone?
Animals500	Plants100
What is it called when an animal sleeps through the winter?	What part of a plant takes in water from the soil?
Plants200	Plants300
What gas do plants take in from the air to make food?	What do we call the process plants use to make food from sunlight?

Science review - question cards

Plants 400 What part of a plant can grow into a new plant?	Plants 500 What green substance in leaves captures sunlight?
Weather 100 What do we call water falling from clouds?	Weather 200 What tool measures temperature?
Weather 300 What is frozen rain that falls as balls of ice called?	Weather 400 What is it called when water vapor turns into liquid drops?
Weather 500 What tool measures air pressure?	Space 100 What star is closest to Earth?

Science review - question cards

Space	200	Space	300
How many planets are in our solar system?		What is the largest planet in our solar system?	
Space	400	Space	500
About how many days does it take Earth to orbit the Sun?		Which planet is known as the Red Planet?	
Human body	100	Human body	200
What organ pumps blood around your body?		What do your lungs take in when you breathe?	
Human body	300	Human body	400
What is the hard frame of bones inside your body called?		What organ is the control center of the body?	

Science review - question cards

Human body

500

About how many bones does an
adult human have?

Science review - answer key

Animals

100	What do we call an animal that eats only plants?	A herbivore
200	What do tadpoles grow up to be?	Frogs
300	What group of animals has feathers?	Birds
400	What do we call an animal with a backbone?	A vertebrate
500	What is it called when an animal sleeps through the winter?	Hibernation

Plants

100	What part of a plant takes in water from the soil?	The roots
200	What gas do plants take in from the air to make food?	Carbon dioxide
300	What do we call the process plants use to make food from sunlight?	Photosynthesis
400	What part of a plant can grow into a new plant?	A seed
500	What green substance in leaves captures sunlight?	Chlorophyll

Weather

100	What do we call water falling from clouds?	Precipitation (rain, snow, sleet or hail)
200	What tool measures temperature?	A thermometer
300	What is frozen rain that falls as balls of ice called?	Hail
400	What is it called when water vapor turns into liquid drops?	Condensation
500	What tool measures air pressure?	A barometer

Space

100	What star is closest to Earth?	The Sun
200	How many planets are in our solar system?	8
300	What is the largest planet in our solar system?	Jupiter
400	About how many days does it take Earth to orbit the Sun?	365 (about 365 1/4)
500	Which planet is known as the Red Planet?	Mars

Human body

100	What organ pumps blood around your body?	The heart
200	What do your lungs take in when you breathe?	Oxygen (air)
300	What is the hard frame of bones inside your body called?	The skeleton
400	What organ is the control center of the body?	The brain
500	About how many bones does an adult human have?	206
